

## Box Control APP

Highend audio control via smartphone

**Box Control APP** is a special development for full control of Box Design network audio players, that takes advantage of our own new **NetAPI interface**. By a touch of your finger, you can play back music from **media servers, Internet radio**, connected **USB storage** and **iPods**.

Additionally **Box Control APP** will be able to operate all IR-controlled Box Design components and even 3rd party devices (like TV ...), when using our forthcoming **Remote Box**. (Available as an option in near future - product information will follow)

**Box Control APP** is compatible with **Stream Box DS net**, **Stream Box RS** and all forthcoming Box Design network audio streamers!

⇒ **All functions**

Select your favourite music from your media server, Internet radio and USB inputs.

⇒ **Simplicity**

Simple to understand with no restrictions in functionality.

⇒ **Speed**

Ultra-fast access to your favourite music: Start, select, play!

⇒ **Elegancy**

Plain and cheerful user interface for real music lovers.

⇒ **Smartphone = Smartphone**

Available for Apple's iOS and Google's Android
