

Stream music from Smartphone to Stream Box

„iMediashare“ makes it possible to transfer your music directly from smartphone to Stream Box DS!

- Playback of complete music library stored on your mobile phone in high quality on Stream Box
- Available for iPhone and Android smartphones
- Get it for free from App store
- Also works with iPad and most Android tablets, but only with small size smartphone display (no special version)
- Automatic detection of Stream Box DS as target for audio playback.
- Display of album cover art

Installation and usage of „iMediashare“

- 1) iMediashare is up to now available for free in Apple and Android store
- 2) Download iMediashare and install on iPhone or Android smartphone.
- 3) No other setup necessary!
- 4) Choose music on your smartphone:
- 5) „My Music“
- 6) „artist/album/track/playlist“
- 7) „Play On“ screen
- 8) Select „Stream Box DS“
- 9) Playback will start on your Stream Box!
