

Stream Box DS+

Pre-amplifier with streamer, internet radio & D/A converter

- 24bit/192kHz hires audio streaming client
- **Spotify Connect support** (firmware 4.0.61.83 or higher)
- Prepared for **HD streaming with Tidal**
- Top-grade Highend PCM 1796 DAC
- WAV, AIFF, FLAC, WMA9 lossless, ALAC & AAC
- FLAC decoding for all 9 compression levels including Level 0 (data rate up to approximately 9 mbit/s)
- Gapless playback of all audio formats
- **Fixed & variable analogue audio outputs (RCA)**
- **Volume control using IR remote, front buttons, App**
- **2x analogue inputs (RCA)**
- **2x USB & 2x digital inputs (coax & optical Toslink)**
- Search functionality fast forward and back
- Alphanumeric search
- 3,5" colour display shows cover art and metadata
- Multiple display languages
- Wifi 802.11/b/g/n allowing real 24/192 with Wifi
- Solid metal casework prevents from interference
- Special proprietary NetAPI implemented for fast access
- Free Control APP (iOS & Android)

AUDIO FORMATS	MP3, FLAC (up to 24bit/192kHz including 24/176), WMA9-lossless, AIFF (up to 24bit/192kHz), AAC, ALAC (up to 24bit/48kHz), LPCM (WAV, up to 24bit/192kHz), Ogg Vorbis 1.0
INTERNETRADIO	vTuner included
GAPLESS	all audio formats (with IR remote or Box Control App)
INPUTS	Network, 1x digital coax, 1x digital optic, 2x analogue 2x USB 2.0 - compatible with USB 3.0 devices (24/192, type A), supports flash & hard disc drives (FAT16 & FAT32)
OUTPUTS	RCA (analogue) coax S/PDIF (digital)
OUTPUT LEVEL	up to 1,8V RCA
SN RATIO	110dB @ 1,8V
NETWORK	Wi-Fi IEEE 802.11 b/g/n & Ethernet (10/100 BaseT)
EXTERNAL CONTROL	Free Box Control APP for iOS + Android
POWER SUPPLY	18VDC/1A
POWER CONSUMPTION	9W max with HD drive/ 0,3W standby
CASING	Aluminium, black or silver
DIMENSIONS	72 x 206 x 230 mm (HxWxD) without plugs/antenna
WEIGHT	2,5 kg

Stream Box DS+ is Pro-Ject Audio's fully equipped **pre-amplifier, streaming client & internet radio**, that is able to play music stored in network servers (computers, NAS drives, etc) connected to your home network. Additional to streaming and pre-amplification functionality **Stream Box DS+** also acts as D/A converter for other digital sources (USB, coax, Toslink). 2 additional analogue sources also can be connected to form a complete system. The built-in high quality pre amplifier stage can be connected to any power amp!

Stream Box DS+ is ready for use with streaming service **Spotify** and will support HD audio music platform **Tidal** in future. Other streaming services like **Deezer, Grooveshark** etc, can be implemented using 3rd party applications. Superb audio playback including 24bit HD music is self-evident, like outstanding technical data for distortion and noise levels. Navigation can be done via IR remote (which is included) and/or free **Android / iOS App**.
