

RESPECT! On a par with class-reference Linn Sneaky DS, but with a full and deep tone, that the Linn is not able to deliver!

Box Control App comes for free and convinces with clear menu navigation and easy to read script.

Price/performance ratio: Outstanding!

CONCLUSION

Bernhard Rietschel
AUDIO-Chefredakteur

Pro-Ject always had a good hand for affordable tube technology, (like phono preamps of the Tube Box range) Stream Box RS is not cheap, but clearly a grown-up member in the network-player family.

Inobtrusive, very organically and dynamic sound quality, that also can be used for other digital sources.

AUDIOGRAMM

- + Full-bodied, very natural and mellow sound
- no iPhone playback, fast forward and return is implemented, but viscous

Sound lossless	110
Control	very good
Workmanship	very good
AUDIO sound verdict	110 POINTS
PRICE/PERFORMANCE	OUTSTANDING
